TornadoTM Pond Treatments

Treatments

POND ALGAE BLOCK

Easy to use and inexpensive solution to Pond Algae problems. While not as fish safe as the Blagdon / Interpet solutions, it is compatible with fish when used as directed. Breaks into 4 small blocks to regulate use / dosage

Code	Size	Treats
PWTB01	20 g	800 Litres
Barcode	9341557003375	

FEATURE POND BLOCK

Easy to use - For any water feature and fountain that has no plant or aquatic life- has biocide action and will keep features clear of slime, scum and algae. However regular water changes will still be required as mineral content of water increases.

Code	Size	Treats
PWTB02	20 g	800 Litres
Barcode	9341557003382	

POND Ph TEST KIT

Any new pond or existing pond needs regular checking of Ph levels so that we can be sure water is not too acidic or toxic - this ensures that the pond is a healthy environment for fish, amphibians and other water using wildlife.

Code	Size	Treats
PWT009	-	All sizes
Barcode	9341557003368
