

Riva

A Self Contained Water Feature

This fountain is a very special eye-catcher. Because of its imposing dimensions — its diameter is 90cm — it is best suitable for large, wide open spaces. It is easy portable and has indoor and outdoor capabilities, too. The warm white LED lighting and its versatility are what make it a very special model.

Specifications

Kit Includes: Feature, Pump, LED Lighting, connection material.

Dimensions: Ø 90 x 30 cm

Material: Polymer stone

Code: SL24110

Barcode: 4025021026040
